

El Yaman Group

Saida, Lebanon – May1, 2014

El Yaman Group installs the Xeikon 3500 with a complete Finishing Line from GM Grafisk Maskinfabrik.

Xeikon 3500 is the flagship wide web press of the Xeikon 3000 Series. It is meant for label and packaging converters who need a wider web width as well as top speeds for the production of their prime label, folding carton, promotional and transfer applications.

Xeikon 3500 has a variable web width ranging from 250mm up to 516mm. it turns at a top speed of 19.2m/ min and can handle production volumes of up to 921 MSI/hour.

GM Habis is proud to announce its first full line Xeikon 3500 in 2014 at Al Yaman Group in Saida Lebanon for the production of their prime label, promotional and transfer applications.
